CREST BREEDING RESULTS **Breeders Name:_____**

Year	Rec No	Cock		Hen		Number of Progeny								Cocks Parents				Hens Parents			
														Sire		Dam		Sire		Dam	
		Ring No	Var	Ring No	Var	CB	T	HC	FC	M	Other			Ring No	Var	Ring No	Var	Ring No	Var	Ring No	Var
98	11	**97-1234**	N	**97-2345**	FC	12	2	1						**92-4321**	N	**96-4444**	N	**95-2222**	HC	**94-2367**	CB

Important Note: Give each pairing a Record Number, and record all breeding results of that pair for the year on a single line. An example is shown at the bottom line of the table. For each year, include <u>all records</u> for the year, for any pairings containing any Crests or Crestbreds. (including matings which produce no crested young)

Legend: Variety CB = Crestbred T = Tuft HC = Half Circular FC = Full Circular M = Multi Crest N = Normal
Other = (These are spare columns, if used, please define crest type)

Definitions: Crest exhibits any permanent or temporary crest characteristics at some stage (including only as nestling).
Crestbred has at least one crest or crestbred parent but at no time exhibits any crest characteristics.
